G                    F7#11                    Em11   A7
  These are the days that I've been missing
                      Am7                D11              G
Give me the taste   give me the joy  of summer wine
G                      Fmaj7                    Em11  A7
  These are the days  that bring new meaning
                Am7                D11          G
I feel the stillness of the sun  and I feel fine

E                                                  Am7
  Sometimes when the nights are closing early
Dsus                                    G
  I remember you and I start to smile
E                                                  Am7
  Even though now you don't want to know  me
            Dsus     Abmaj#11              Bbmaj13
I get on by, and I go the extra mile

G                    F7#11                    Em11    A7
  These are the times of love and meaning
                   Am7              D11                G
Ice of the heart   melted away  and found the light
G                      Fmaj7                    Em11   A7
  These are the days   of endless dreaming
                   Am7              D11                G        C/G
Troubles of life   floating away  like a bird in flight

                  G          C/G
These are the days,
                  G          C/G
these are the days,
                  G          C/G
