When I first saw your face, it was Sunday
And in my heart it will always stay with me
You had the face of saint in the cathedral /++++++/
Up on the steps you stood and I in the street

I used to think I had friends - and many
Funny how I can't think of one of their names
And suddenly I think I feel slightly religious
Can I walk along beside you to today

Angels don't lie, tell me why, did you leave heaven
What here on earth could make you leave
Tell me true, was it love, answer my question
Did you leave heaven for a love found in me

You left behind your family and money
All in town know your family's name
Look at me its plain to see - my pockets empty
But brighter than gold in my heart burns a flame

Angels don't lie, tell me why, did you leave heaven
What here on earth could make you leave
Now, tell me true, was it love, answer my question
Did you leave heaven for a love found in me

repeat chorus

repeat 6 times

Did you leave heaven for a love found in me
