Dive straight in on your girlfriend, Making her feel like there's going to be a war, ooh Dive straight in at the deep end, Making you feel like there's going to be a war,

As I turn to you and I say, Thank goodness for the good souls, That make life better, As I turn to you and I say, If it wasn't for the good souls, Life would not matter,

One good day of the week, And I'll be up again, One good day of the week, I'll be higher than the government,

As I turn to you and I say, Thank goodness for the good souls, That make life better,

As I turn to you and I say, If it wasn't for the good souls, Life would not matter, As I turn to you and I say, If you're messing with a good heart, You've got to take what's due.
