

TALK HER DOWN

Starsailor - Love Is Here - 2001

Bm
You came waltzing in,
Where the love had been,
Em
And the boys all looked around,
A *F#* *Bm*
Let me stay while you talk your baby down,
Bm
I came waltzing in,
Where the light had been,
Em
And the girls all looked away,
A *F#* *Bm*
Let them stare while we make our getaway,

You came waltzing in,
Where the light had been,
And the dark was all around,
Let me stay while they all fall to the ground,

Bm *A*
I was hiding from the weather,
G *F#*
She was recently estranged,
Bm *A*
When she put me back together,
G *F#*
Didn't even know her name,
Bm
/++++/++++/++++/++++

You came waltzing in,
Where the life had been,
And the death was all around,
Let them stare while they all fall to the ground,

You came waltzing in,
Where the love had been,
And the girls all looked away,
Let me stay while they make their getaway,

I was hiding from the weather,
She was recently estranged,
When she put me back together,
Didn't even know her name,

chords like verse, instrumental

You came waltzing in,
Where your life had been,
It was nowhere to be found,
Take me back to the place where we were bound,

You came waltzing in,
Where the love had been
And the boys all looked around,
Let me stay while you talk your baby down,

I was hiding from the weather,
She was recently estranged
When she put me back together,
Didn't even know her name.
