Feel,
Sick after every meal,
I'd say,
'Cos I know,
The life from your burning wheel,
Won't wane,

Sleep, - I sleep every day,

Wipe the cobwebs away,
I need to be loved,
Christ, I'm out of my mind,
```

```
I need to be loved,
I need to be loved,

  As I turn to you and I say,
                     D
Thank goodness for the good souls,
     F        G
That make life better,
```

  As I turn to you and I say,
                   D
If it wasn't for the good souls,
     F        G
Life would not matter,

Dive straight in on your girlfriend,

Making her feel like there's going to be a war, ooh
Dive straight in at the deep end,
Making you feel like there's going to be a war,

```
A                        Amaj7
  As I turn to you and I say,
                     D
Thank goodness for the good souls,
     F        G
That make life better,
```

A                        Amaj7
  As I turn to you and I say,
                   D
If it wasn't for the good souls,
     F        G
Life would not matter,

One good day of the week,
And I'll be up again,
One good day of the week,
I'll be higher than the government,

As I turn to you and I say,
Thank goodness for the good souls,
That make life better,

As I turn to you and I say,
If it wasn't for the good souls,
Life would not matter,

As I turn to you and I say,
If you're messing with a good heart,
You've got to take what's due.
